THE NEW PROPERTY OWNERS ASSOCIATION OF NEWPORT, INC.
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 1 - Nature of Organization

The New Property Owners Association of Newport, Inc. (the "Association") was incorporated as a Texas non-profit corporation in 1996 to provide for the operation and maintenance of the common property of Newport, a residential subdivision located in Crosby, Texas. On December 4, 2015, the Association formed and acquired all of the outstanding shares of stock of Stonebridge at Newport, Inc. ("Stonebridge"). Collectively, the Association and Stonebridge are referred to as the Company.

Note 2 - Summary of Significant Accounting Policies

This summary of significant accounting policies of the Association is presented to assist in understanding the Association's financial statements. The financial statements and notes are the representation of the Association's management, who is responsible for their integrity and objectivity. These accounting policies conform to generally accepted accounting principles and have been consistently applied in the preparation of the financial statements.

Principles of Consolidation

The accompanying financial statements include the accounts of the Association and its wholly-owned subsidiary. All significant intercompany transactions and balances have been eliminated in consolidation.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting. Under this method, revenues are recognized when earned and expenses are recognized when incurred.

Member Assessments

Association members are subject to assessments to provide funds for the Association's operating expenses, future capital acquisitions, and major repairs and replacements. Members have the option of paying their assessments on a yearly basis or on a monthly basis. Any excess assessments at year end are retained by the Association for use in future years. Liens can be attached on the properties of homeowners whose assessments are in arrears.

Summary of Significant Accounting Policies (Continued)

Event and Golf Revenues

Stonebridge engages in operating a golf course, sponsoring events (such as weddings) and providing food and beverage to patrons. Revenues from such activities are recorded as the related activities are provided. Event deposits, which are nonrefundable are recorded as revenue as received. Golf memberships paid in advance are deferred and recognized as revenue over the term of the membership.

Property and Equipment

Real property and common areas acquired from the developer and related improvements to such property are not recorded in the Association's financial statements in accordance with accepted accounting practices for homeowners associations. The Association capitalizes significant personal property it acquires.

Income Taxes

The Association is exempt from federal income taxes under Section 501(c)(4) of the Internal Revenue Code. Stonebridge is a "C" corporation and is a taxable entity under applicable sections of the Internal Revenue Code. At December 31, 2019, Stonebridge had a net operating loss for federal income tax purposes in the amount of \$2,188,693.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Statement of Cash Flows

For purposes of the statement of cash flows, the Company considers investments with a maturity of three months or less to be cash equivalents.

NOTES TO FINANCIAL STATEMENTS

Note 3 - Concentrations

The Company maintains cash accounts and certificates of deposit, which at times, may exceed federally insured limits. The Company has not experienced any losses from maintaining cash accounts in excess of federally insured limits. Management believes it is not exposed to any significant credit risk on its cash accounts.

Note 4 - Management

Effective November 1, 2010, the Association became fully self-managed.

Note 5 - Allowance for Doubtful Accounts

The Association has provided an allowance for accounts which are considered doubtful of collection. This allowance is based on several factors, including consideration of the statute of limitations for collection of assessments from members, historical information on the collection of assessments in the succeeding years after they are billed to members, and the nature of amounts included in such assessments (such as legal fees, finance charges, etc.). Since becoming self-managed, the Association has experienced increased collection rates, and believes such trends will continue in the future. At June 30, 2020, an allowance of \$218,578 has been established for accounts which are considered doubtful of collection.

Note 6 - Future Major Repairs and Replacements

The Association conducted an internal study to determine the remaining useful lives or replacement costs of the components of common property. The study was based on the past history of major repairs and replacements, and management's knowledge of needed repairs and replacements needed. The results of the study are presented on page 13.

At June 30, 2020, the Association did not have a separate bank or other account designated as a reserve account. Actual expenditures accumulated for future major repairs and replacements may be greater than funds accumulated for those purposes. When major repairs and replacement funds are needed, the Association has the right to increase regular assessments or pass special assessments, or may delay such replacements until funds are available.

Note 7 - Stonebridge Purchase

In January, 2016, Stonebridge purchased all the real, personal and intangible property related to the Newport Golf Club and Conference Center (the "Club"). Such property included an eighteen hole golf course, the pro shop, conference center, and country club, and all furniture and fixtures related thereto. The purchase price was \$1,400,000. Subsequent to the purchase, the Association and Stonebridge made significant improvements to the golf course, the country club building, and acquired new equipment for the maintenance of the golf course.

Stonebridge has sustained substantial operating losses since its acquisition of the Club through December 31, 2019. Such operating losses amounted to \$1,079,000 for the year ended December 31, 2019 and \$896,000 for the year ended December 31, 2018. Continued operations of the Club for these years was generally dependent on advances from the Association. Such operating losses have continued through June 30, 2020. But have been substantially less than in prior years. For the six months ended June 30, 2020, the Association advanced a total of \$197,373 To Stonebridge. Continued operation of the Club is dependent on an improvement in operating results and/or continued advances of funds from the Association.

On October 26, 2018, the Association and Stonebridge entered into a management agreement (the "agreement") with Billy Casper Golf, LLC ("BCG"). Under the terms of the management agreement, BCG was to provide management services, and to manage the day to day affairs of the Club. The agreement commenced on October 28, 2018, and was to expire on December 23, 2023. The agreement provided for two three year extensions of the agreement. The base management fee under the agreement was \$8,000 per month. In addition, BCG was to earn an incentive management fee depending on improvements in the operating results fo the Club. The agreement was terminated by Stonebridge in September, 2019.

At December 31, 2019, total advances to Stonebridge by the Association amounted to \$3,507,009. Management of the Association concluded that the maximum amount of funds the Association could recover from a sale or other disposition of Stonebridge would be limited to \$2,500,000. As a result, any further advances to Stonebridge by the Association will be considered to be part of the overall expenses of the Association, and part of the overall income of Stonebridge. As a result, an amount of \$197,373 was expensed by the Association, and included as revenues of Stonebridge during the six months ended June 30, 2020.
