Why would you like to be a Director of the New Property Owners Association of Newport? Please include any unique qualities or characteristics you would bring to this position:

- My family and I have lived in Newport since 1977. We purchased property in 1972 when there were no roads in section 4 where we live. We thought it was a beautiful place to live and raised our family. Over the years, we have seen the good and the ugly. Newport is growing and will continue to grow in the future to ensure we do the things to ensure our community continue to grow and prosper. The other side of Lake Houston is growing in leaps and bounds. It is just a matter of time before our side of Lake Houston will do the same.
- Being on the board has allowed me the opportunity to ensure what's needed for the continued growth of our community. We have gone through some trying times and in the future for Newport.
- When I became a board member, we were going through some trying times as management of the golf course changed. We took on the management and have turned things around where we are now financially stable in the black. We have made many improvements and plans are looking very good to date. I would like to continue working with the board to make future improvements.
